

Four Points & St. Hedwig Feed Business Opens

Brothers Greg and Kenneth Franckowiak have opened a new convenience store along with having relocated their feed business to the corner of Farm Road 1518 and 1346 in St. Hedwig.

The busy intersection is a good stopping point for people in the neighborhood, and the convenience and grocery items available at the Four Points Stop will make it a popular stopping point. Hardware, feed and vet supplies are available at St. Hedwig Feed & Supply.

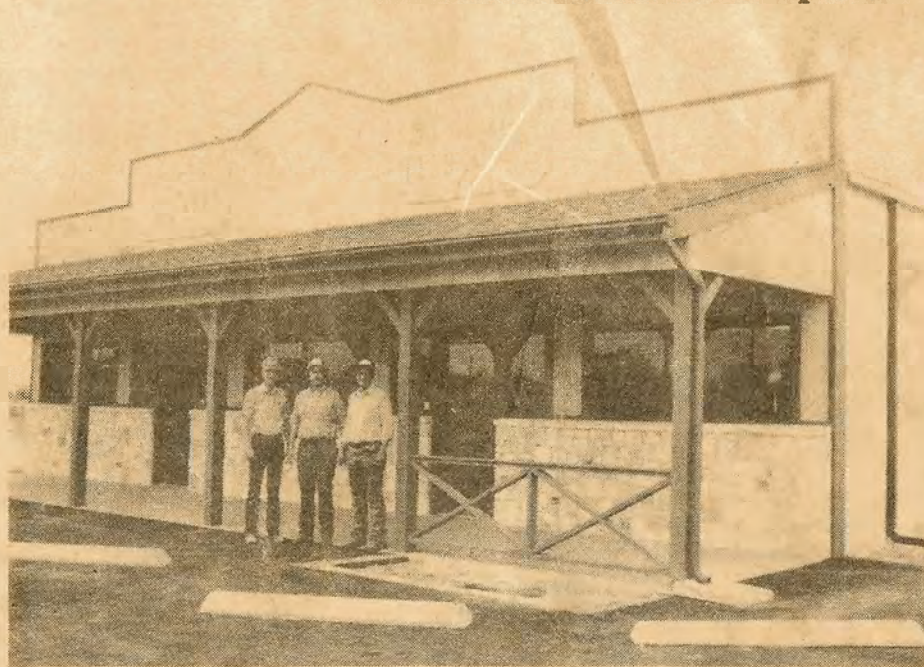

Greg's son, Vince, is manager of the St. Hedwig Feed and Supply. The two businesses are housed side-by-side in a specially constructed building which allows one central cashier to work both businesses.

Greg's wife, Rhonnie, also works with the business as cashier and convenience store manager.

The Franckowiaks opened their St. Hedwig Feed and Supply in January of 1985 and the business has been growing ever since. "We appreciate all the customers who have been so patient with us while our business was located next to our

house. They had to drive down this old rough gravel road. I know our customers will enjoy these new facilities," said Franckowiak.

The new location will feature Diamond Shamrock gasoline, grocery and picnic supplies and lots of varied merchandise. They also feature Blue Bell ice cream and have counter services.

Kenneth, Vince and Greg Franckowiak are open for business at St. Hedwig Feed and Supply and the Four Points Stop located at the intersection of FM 1346 and 1518 in St. Hedwig.

The feed store has a complete line of ACCO and Ful-O-Pep feeds. "The Ful-O-Pep feeds are excellent for show animals," said Franckowiak. He said the Grand Champion at Houston and the Reserve and Grand Champion Tur-

keys at the Bexar County Junior Stock Show were all fed the Ful-O-Pep line. Ful-O-Pep claims the champions for the last five or six years.

Especially their pountry feed is good for show animals.
